DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The prior art of the record do not teach a supporting structure for a motor-generator apparatus for a vehicle, including inter alia *a magnetic shunt members inserted in respective magnetic shunt member accommodation apertures extending along said axial direction* of the rotor core, for shunting magnetic fields produced by said permanent magnets, a field winding disposed at the inner peripheral face of said rotor core, for producing a magnetic flux within said magnetic shunt members along the axial direction, and a yoke member, disposed at the inner periphery of said rotor core, to form a flow path for the magnetic flux produced by said field winding, in conjunction with said rotor core and said magnetic shunt members, *wherein each of said permanent magnets has a portion thereof disposed radially inward from said magnetic shunt members, and said rotor core has a magnetic path which extends from a region at the outer periphery of said rotor core through a region disposed between two circumferentially adjacent ones of said permanent magnets and to a region which is located radially inward from said permanent magnets.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
